Relationship Manager Program

Partner with local schools to provide academic services
that empower students to achieve brighter futures.

Make a difference in your community! Join the MathSP Relationship Manager Team and connect with your local middle and high schools to help improve individual student academic performance.

MathSP Relationship Manager (Part-Time):

Students learn best in different ways; some are able to thrive in a large classroom environment, while others need more individualized attention. At MathSP, our goal is to help all students realize their full potential.

MathSP Relationship Managers understand how important it is to invest in education. MathSP provides academic support to students in middle and high school, helping them to succeed in all levels of math and science subjects as well as on standardized tests for college admissions. As a MathSP Relationship Manager, you will use your skills and talents to build relationships and create partnerships with teachers, counselors, and administrators, enabling MathSP to reach students and families.

MathSP Relationship Managers are committed to bringing value to their communities. By collaborating with school administrators, teachers, counselors, and parents, our goal is to unlock the potential of Atlanta's students, boost their confidence and understanding of math and science concepts, and help each individual achieve their target scores for college admission.

“It is really great to have the flexibility to set your own hours and schedule work around your time. To see students go from MathSP prep to the college of their choosing is really rewarding!”

-Matt, Georgia Tech Graduate Student, Harvard Undergraduate

MathSP Relationship Manager Responsibilities:

1. Facilitate and nurture relationships with middle school and high school teachers, counselors, administrators, parent organizations and local community organizations; champion education in schools and communities; and support school and community initiatives and programming.
2. Assist with outreach to parents and school personnel; provide information about MathSP’s academic support services, including math and science academic tutoring, and college admission services, including admission workshops and test preparation, to local schools.
3. Increase MathSP’s visibility in schools and community; discuss school needs and possible solutions with school personnel; assist in securing partnerships, sponsorships, and other engagements at school and community events and functions.

Education is the key to success. Be part of a dynamic effort to equip students with the skills and knowledge to pursue college education and prepare them to become leaders in their communities and beyond.

Make a Difference in the Lives of Students:

At MathSP, we value Relationship Managers who are passionate about making a difference in the lives of students. As a Relationship Manager, you will connect with school personnel, families, and community to bring MathSP academic tutoring services and test preparation opportunities and workshops, ultimately helping make students more desirable and competitive to colleges.

“I have an impact on my community. I care about my community and it is great to make a difference in the lives of the families I serve!”

-MathSP Relationship Manager

Our Commitment to You

Our dedicated team is the key to our continued success and growth as a company. We know that you have a busy life with many commitments. We are committed to providing:

1. **Flexible hours** - Work and still have time to attend your children's school and extracurricular events
2. **Growth opportunities** - Performance based bonuses and management opportunities are given based on results, drive, and passion to make a difference.
3. **Competitive pay** - Earn money while giving back!

Ensuring the best possible college admission prospects for students in our community is not only possible, it can happen with your help! MathSP employs highly qualified, transformational leaders to serve the talented pool of students in the Atlanta area - ensuring a brighter future for them and our community as a whole.
